

# MACROBIOTIC CRYSTAL SALT

## RICH IN MINERAL & TRACE ELEMENTS

## WILD HARVESTED IN AUSTRALIA

Our Natural Salt Crystals are wild harvested in Australia, food grade and free from modern pollutants, micro-plastics or contaminants. It is unprocessed, unrefined and unbleached. The salt also retains a natural balance of minerals and trace elements.

Sustainably sourced by the winter rains which dissolved part of the crust and draws brine to the surface.

### FEED RATE

|             |         |
|-------------|---------|
| Maintenance | 25g/Day |
| Heavy Work  | 50g/Day |

### INGREDIENTS

Pure Australian Inland Salt

| NUTRIENTS        | PER SERVE           |
|------------------|---------------------|
| Sodium (%)       | 39                  |
| Chloride (%)     | 58                  |
| Calcium (ppm)    | 986                 |
| Iron (ppm)       | <9.86               |
| Iodine (ppm)     | <5                  |
| Selenium (ppm)   | <5                  |
| Magnesium (ppm)  | 345                 |
| Manganese (ppm)  | 1.48                |
| Phosphorus (ppm) | 98.6                |
| Zinc (ppm)       | 1.97                |
| Copper (ppm)     | 2.47                |
| Potassium (%)    | 0.215               |
| Dimensions:      | Granularity <1.00mm |
| Moisture         | <3%                 |
